BIG FLUFFY GIANT COOKIES

Jamu(ta)ko

Got this recipe from a coworker who brought them to a potluck! The cookies turn out incredibly BEEG, soft and fluffy... almost like cake inside! I recommend trying it!! (Just be ready for your mixing arm to get a little tired, if you have stick arms like me...)

Ingredients:

1 cup salted COLD butter,
cubed
1 cup brown sugar
1/2 cup granulated sugar
2 eggs
1 1/2 cups all-purpose flour
1 1/3 cups cake flour
1 teaspoon cornstarch
3/4 teaspoon baking soda
1.5 bags Ghirardelli Semi-
Sweet Chocolate Chips (each
bag 24oz)
Sprinkle of coarse sea salt

Instructions:

- 1) Preheat oven to 400° and line a cookie sheet pan with parchment paper.
- 2) In a stand mixer (or bowl with hand mixer), add butter and then both sugars on top. Mix until completely combined and smooth.
- 3) Add one egg at a time to mixer, mix until just combined (don't over-mix).
- 4) In a separate bowl, whisk together flour, cake flour, cornstarch, and baking soda.
- 5) Slowly add the above into the wet mix, folding in gently with spatula (don't use power mixer).
- 6) When the above is mostly mixed in, add the chocolate chips and continue stirring until everything is well combined. (Avoiding over-mixing keeps the dough from getting too dense!)
- 7) Separate out the dough in roughly 5oz pieces, stacked loose and tall on pan, about 2 inches apart (DON'T roll them into a ball). Scale can help weigh them, but if you don't have one, estimating is fine. Just make big chunks, about 8 per batch.
- 8) Sprinkle each cookie with sea salt to taste. (I also added purple and yellow sprinkles for Ina!)
- 9) Bake on center rack for about 14 minutes. Watch carefully, your oven may differ!
- 10) Once golden brown on top, remove from oven and *rest on a cool surface for at least 15-20 minutes*! (Pan on cold countertop is okay, or carefully move the parchment paper to the counter). This step is important -- cookies come out underbaked for a reason and this allows them to finish setting! Have patience, they will still be fresh and warm after waiting ^^
- 11) Optional: For serving at a gathering, you may wish to cut these large cookies into halves or quarters. Be sure to wait a full 30m-1hr before cutting to ensure the inside isn't too gooey.
- 12) Store any extras in an airtight container. They'll stay soft and chewy for days!

ENJOY!! <3

Sweet Potato Balls

SleepzyTofu

Whenever I eat sweet potato balls at night market, I feel like I'm eating some kind of Takodachi because they're purple and round, lol. In Taiwan, they are made with a crispy outer layer and a chewy, mochi-like texture inside, with a hollow center. They're super delicious and fun to eat!

Ingredients:

100g sweet potato
100g purple sweet potato
60g tapioca starch
40g sugar

Instructions:

1-Steam the sweet potato and purple sweet potato in an electric cooker with 300ml of water in the outer pot. Steam for about 15 minutes until fully cooked, then mash them.

2-Mix the ingredients in the following ratio:
100g sweet potato or purple sweet potato + 30g tapioca starch + 20g sugar.

Mix each separately, then combine and knead into a dough.

Divide the dough into even portions and roll into balls.

3-Airfry

Lightly coat the balls with oil and place them in the air fryer:

First, 160°C for 7 minutes.

Open the air fryer, lightly press each ball to flatten slightly, and coat with oil.

And then repeat three times of 200°C for 2 minutes.

Each time, open the air fryer, press each ball again, and coat with oil.

On the last round, no need to coat more oil.

Bonding Chocochip Cookies

NxKarim

I make them for special occasions to connect with friends and family. After lots of trial and error with different recipes, I ended up mix-and-matching my favorite parts. Now, I'm sharing this recipe to bond with all the Takos and with Ina, for her birthday!

Ingredients:

145 g (5.1 oz) bread flour
100 g (3.5 oz) all-purpose flour
1 tsp baking soda
2 tsp salt
225 g (7.9 oz) butter (melted or browned, but cooled to room temperature)
200 g (7.1 oz) dark brown sugar
100 g (3.5 oz) white sugar
2 tsp vanilla extract
1 tsp instant coffee (can be decaf) 1 large egg + 1 large egg yolk
140 g (4.9 oz) chopped dark or milk chocolate
1 tsp flaky sea salt (optional, for topping)

Instructions:

1. Prepare the Dry Ingredients:
In a bowl, sift together the bread flour, all-purpose flour, baking soda, and salt. Set aside.
2. Mix the Wet Ingredients:
In a separate large bowl, whisk together the brown sugar, white sugar, vanilla, and instant coffee.
Once the mixture is smooth and uniform, add the egg and yolk, then mix until fully combined and the texture becomes creamy.
Do not overmix — this can make the dough greasy.
3. Combine Wet and Dry:
Gradually incorporate the dry mixture into the wet mixture in thirds, mixing each time just until no dry flour is visible.
When almost fully mixed, switch from the mixer to a wooden spoon or spatula, and fold in the chopped chocolate.
The dough should resemble soft-serve ice cream: soft but not runny or too firm.
4. Portion and Chill:
Use your hands or an ice cream scoop to form dough balls.
Place them on a plate or tray and freeze overnight.
(This step enhances the flavor and makes baking easier.)
5. Optional Bonus:
Before freezing, sprinkle a few flakes of sea salt on top of each cookie ball for a delicate salty contrast to the sweetness.
6. Bake:
Preheat oven to 180°C / 355°F.
Bake the frozen cookie dough balls for 12–20 minutes, depending on your oven.
(Watch for golden edges and a slightly soft center.)
Let them cool slightly before eating — they're best warm, but not scorching hot!

Peanut Butter Maple Cookies

Bod Wid

I always wanted to do some baking at home, but I never found the time or the motivation to do it, but thanks to Ina's merch with these cookie cutters I finally had the excuse to make cookies and since then I make cookies at least once every 2 weeks.

Ingredients:

1 cup peanut butter
1 cup wheat flour
1/2 cup maple syrup
4 tablespoons cocoa powder

Instructions:

1. Mix all the ingredients for the biscuits in a bowl and knead until you obtain a homogeneous dough.
2. Wrap the dough in plastic wrap or an airtight container and put it in the fridge for about half an hour.
3. Preheat the oven to 190°C
4. Then take the dough and roll it out.
5. Stamp and cut out the dough
6. Put the cut-outs on a baking tray with parchment paper and bake them for about 10 minutes.
7. When you take them out of the oven, leave them on a wire rack to allow them to air well before storing or eating them.

Ube Ice Cream

Synnrad AKA Eric

This ice cream is always a big hit with my friends! It's not a standard ice cream recipe and is really easy to make. It's also got a good ube taste without the need for ube halaya(jam) and just relies on the extract and powder for the flavor. It goes great with some sugar cookies or a piece of cake!

Ingredients:

2 cups (16floz/450ml) heavy whipping cream, cold
1 can (14floz/400ml) sweetened condensed milk, cold
4 teaspoons (20 ml) ube flavoring extract
1 tablespoon ube powder(I use finer powder over coarser but both should work)

Instructions:

1. Whip heavy cream on medium-high speed until soft peaks form.
2. Pour in condensed milk and whip until thick, stiff peaks form.
3. Add the ube extract and powder and whip until combined.
4. Spread evenly into a freezer-safe container, cover and freeze for at least 5 hours, or overnight. Store in the freezer for up to 6 weeks.

Császármorzsa/Smarni

Masanobu Maou

Császármorzsa or smarni is a traditional Hungarian dessert recipe of shredded pancakes served with sweet jam. It's easy to make and very delicious! This is my grandmother's receipt I wrote down and translated. I hope you and the other takodachis will like it as well :3

Ingredients:

Prep time: 20 minutes, cooking time: 15 minutes

The recipe is for 6 servings, can be stored in a fridge and heat it up later.

Instructions:

1. Crack all 6 eggs and separate the egg whites from the yolks into two bowls.
2. Wash and soak the raisins and cranberries in hot water. Melt the butter a bit and take half.
3. First, we work with the egg yolk bowl. We use sugar and half the melted butter, and then we pour warm milk into it, 1/3 of the milk we prepared.
4. We mix the two kind of flour first, then through a sieve we pour them slowly into the egg yolk bowl. As we mix it, we also add the lemon peels, raisins and cranberries into it.
5. We continue to add the flour into the bowl and pour all the remaining milk into it as well. Then, we mix it until it has some air bubbles in it. If it's done, let's leave it to rest for a bit.
6. Next, we will prepare the other bowl. Add a pinch of salt to the egg whites to make them easier to whip. Use a hand-mixer to whip the egg whites. Tilt the bowl and start whipping slowly, the foamier the better. (please don't make butter, we have enough)
7. Once it turns white and starts to foam, you can place the bowl horizontally and slowly, in a circular motion, mix it until it gets stiff.
8. Next, gradually add the whipped egg whites to the rested mixture, then stir everything together so that the raisins and blueberries that have settled to the bottom are mixed in well.
9. We are cooking it next. Using a pastry brush, make sure the pan is oiled well with olive oil and with the other half of the melted butter. Then heat it up.
10. When the pan gets hot, pour the mixture into it. Be aware that the bottom of the dough can easily burn! Once it has come together, break it into smaller pieces with a wooden spoon and turn it over and over to bake evenly. Be careful not to let it dry out and cover the pan with the lid when you are not stirring it.
11. You'll know when it's done by the texture. It's nearly done, when it's already chunky and less sticky, and there are browned pieces in it, but it's not dry yet. Turn off the oven and leave the lid on the pan for a little bit longer, so the moisture goes back into it.
12. Let's remove it from the heat, but leave the lid on halfway and let it cool down a little, but do not let the steam escape.
13. According to your taste, you can serve it with jam, powdered sugar and cacao powder on top. I recommend strawberry and peach jam with it! :3

Grandma's No-Bake Traditional Tiramisu Raven0815

This Tiramisu recipe is very close to my heart. My grandma has been making this for me ever since I was a wee Tako and the taste reminds me of all the happy times. I hope this tasty treat brings you as much joy as it does for me.

Ingredients:

3 egg yolks*
3 tablespoons white sugar
500g mascarpone cheese
200g heavy cream (the liquid
type of cream used for whip-
ping cream)
200ml black coffee
250g ladyfinger cookies (the
hard type)
cocoa powder (for dusting)

Instructions:

Step 1:

Brew some coffee, let it cool and set aside for later.**

Step 2:

Whisk the egg yolks & sugar together until foamy. In a separate bowl, whisk together the cream & mascarpone until you get stiff peaks. Transfer the cream to the egg yolk mass and fold it under gently with a spatula or large spoon.

Step 3:

Give both ends of the ladyfingers a quick dip in the cold coffee, lest they disintegrate into the void and lay them out neatly in your container. Now layer some of your finished cream on top of the ladyfingers and repeat the process for one more layer.

Step 4:

After leveling out the top layer of cream, refrigerate for at least 4-6 hours or better over night***. Before serving, dust your Tiramisu with cocoa powder by running it through a sieve.****

Step 5:

World DomINAtion. Enjoy, WAH!

Notes:

*if the idea of raw egg yolks makes you queasy, go for pasturized eggs

**have the coffee in a shallow container/bowl for ease-of-dipping for the ladyfingers

***an entire day in the fridge is the optimal amount of time for the flavours to blend and for the cream to harden in my humble opinion

****depending on the amount you dust on, inhaling hazard

Pierogi with Cherries

sunnyfaller

I'm from Poland and pierogi with cherries is one of those things that my granny would make for me around holidays. Not a lot of people enjoy sweet pierogi but I really like them and they remind me of my family.

Ingredients:

Dough for pierogi with cherries:

5 cups (600g) of all-purpose flour

1 egg

1 cups of warm water

2 pinches of salt

4-5 tablespoons of oil

Filling:

1 ½ lbs (700g) of cherries

Instructions:

1. Put flour, egg, oil, and salt into the bowl. Whisk it together with a hand or dough hook attachment.

2. Start adding the water slowly, letting it incorporate before adding more.

3. Whisk until all the ingredients are incorporated and there are no lumps.

4. Wash and pit the cherries.

If the cherries are very sour, you may coat them with sugar.

5. Divide the dough into 2 or 3 pieces.

6. Thinly roll each piece out onto a floured surface to just under 1/16 - 1/8" thickness.

7. Use a round cookie cutter to cut the circles from the dough.

8. Put the cherries in the center of each circle, the more fruits, the better. However, you need to make sure that they stay inside the pierogi. If a cherry gets between the dough when sealing, the pierogi may fall apart during the cooking.

9. Pull the edges of each circle together to form pierogi. Make sure the seal is continuous and intact. You can't leave any free space, as the pierogi will fall apart during the cooking. Pinch tightly.

10. Collect the remaining dough scraps and put them to the other 2 dough pieces. Repeat the process until the entire dough and all the cherries are used.

Walnut Chocolate Cookies

Feed

This is the cookie recipe I've been messing around with for a few years. Although I liked baking before, I only really began focusing on finding "the perfect cookie" recipe after seeing how much you loved them.

PS. You can freeze these at step 7 for up to four months. Thaw 1hr prior to baking!

Ingredients:

4oz of room-temp butter
4oz of dark brown sugar
4oz of white sugar
1 tsp of salt
2 large eggs at room temp
1 tbsp of vanilla extract
10oz of AP flour
2 tsp of baking powder
1 tsp of baking soda
12oz of chocolate chips (I prefer dark chocolate)
10oz of walnuts (preferably toasted!)

Instructions:

- 1: Cream the butter with the brown and white sugar until incorporated and fluffy (roughly 5 minutes)
- 2: Add the vanilla, then the eggs one at a time to ensure incorporation
- 3: In another bowl, add the flour, baking powder, and baking soda together and mix with a fork or whisk to evenly spread ingredients
- 4: Add the flour mix into the butter mix and mix until you no longer see streaks of flour
- 5: Add in the chocolate chips and chopped walnuts and mix until they're roughly spread through the dough
- 6: Scoop the dough with your hands into 13 roughly-equal 100g balls (try to compress them as little as possible! It's ok to have it be craggy!)
- 7: Chill the balls on a sheet tray for about two hours in the refrigerator or thirty minutes in the freezer (this is required for proper cooking!)
- 8: Preheat the oven to 350F and place your cookie balls on a sheet tray with parchment paper for about 15 minutes, until the edges are nicely golden brown (don't flatten the dough at all during this step even if it looks a bit weird!)
- 9: Allow cookies to cool for 15 minutes on the sheet tray and then transfer them to a cutting board or another tray to cool completely. This ensures the inside finishes baking without overbaking

Blueberry Cookies

Reykhebaxh

This is my favourite cookie recipe, because the color looks really pretty, and i can't find any of them in supermarket, so i made them myself !! Originally i want to use Ube/Taro, but they are super hard to find here, so i create this recipe, while still maintaining unique color, and be delicious!!

Ingredients:

170g all-purpose flour(or wheat flour(type 405))
1/2 teaspoon baking powder(-containing cornstarch)
1/2 teaspoon baking soda
1/2 teaspoon salt
125g unsalted butter(softened or melted)
100g brown sugar(or 60g honey)
1 large egg(in room temperature)
80g frozen blueberries
100g white chocolate(roughly chopped)
1/2 teaspoon nutmeg and 1/2 teaspoon cinnamon(if you don't like spice notes, you can replace with 1 teaspoon of vanilla extract)

Instructions:

****Making the dough**:**

1. Put butter in a large bowl, and start whisking until creamy. Alternately, you can put the butter in microwave, remember to use microwave-safe bowl, and cook them at 360W for 30 seconds, it'll melt completely(do not cook for longer than 30 seconds, or it'll go Kaboom!!)
2. Add sugar/honey to the large bowl, together with butter, and whisk until both completely mixed.
3. Add the egg, and continue whisking until the whole egg is blended
4. Preprocess the blueberries. Put them in microwave for 30 seconds at 360W, then mash them with the back of a spoon or fork. Repeat the process again until they have a jam-like texture. After finishing the preprocessing, add them to the large bowl, (If you use vanilla extract, add it at this step, together with the blueberry mixture), and whisk until blended(If you use vanilla extract, add them at this step, together with the blueberry mixture)
5. Mix the baking powder, baking soda, flour, salt, and the spices(should you use them) in another empty bowl, and stir them together
6. Pour the powder mixture through a strain into the blueberry butter mixture, and mix them together with a spatula
7. Add the chopped white chocolate, and mix them until evenly distributed
8. Wrap the plastic foil over the bowl, and put them in the fridge for 30 minutes

****Baking the dough****

1. Scoop the dough with an ice cream scooper and put them into baking tray covered with baking sheet. If you don't have to scooper, you can scoop with hands and mold them into palm-sized balls, but they won't really look pretty..
2. Bake the doughs at 175 C(or 350 F) for 10-12 minutes
3. Pull the tray out and enjoy the cookies(= w=b)

Brazilian Cheese Bread

Jhon. Palmer

It's the most traditional recipe from my state, the welcoming snack for anyone interested in our culinary. It is really good as breakfast or afternoon lunch.

Ingredients:

1 cup whole milk
1/2 cup vegetable oil
1 teaspoon salt
10 ounces tapioca flour or sour cassava flour (about 2 cups)
2 large eggs
1 to 1 1/2 cups grated Parmesan cheese

Instructions:

1 - Heat the oven: Arrange 2 racks to divide the oven into thirds and heat to 450°F. Line 2 baking sheets with parchment paper or silicone baking mats.
2 - Boil the milk and oil: Place the milk, oil, and salt in a medium saucepan and bring to a gentle boil over medium heat, stirring occasionally. Remove from heat as soon as you see big bubbles coming through the milk.
3 - Add the tapioca flour: Add all of the tapioca flour and stir with a wooden spoon until you see no more dry tapioca flour. The dough will be grainy and gelatinous at this point.
4 - Cool the dough: Transfer the dough to the bowl of a standing mixer fitted with a paddle attachment. (Alternatively, you can finish the dough by hand. Be prepared for a work-out.)
5 - Beat the dough for a few minutes at medium speed until it smooths out and has cooled enough that you can hold your finger against the dough for several seconds. There may be an oily slick that is not fully incorporated.
5 - Beat in the eggs: With the mixer on medium speed, beat the eggs into the dough one at a time, waiting until the first egg is fully incorporated before adding the second. Scrape down the sides of the bowl as needed.
6 - Beat in the cheese: Beat in the cheese on medium speed until fully incorporated. The resulting dough will be very sticky, stretchy, and soft with a consistency between cake batter and cookie dough. It will not be completely smooth.
7 - Portion the puffs: Have a small bowl of water ready. For small puffs, scoop the dough by level tablespoons onto the baking sheets, spacing them about 1 1/2-inches apart (24 per baking sheet). For larger puffs, scoop the dough with a small (1 ounce or 2 table-spoon) ice cream scoop, spacing them about 2-inches apart (12 per baking sheet). Dip your scoop in water between scoops to prevent sticking.
8 - Bake the puffs: Place the baking sheets in the oven and immediately reduce the heat to 350°F. Bake for 15 minutes. Rotate the baking sheets between racks and from front to back. Bake until the puffs have puffed, the outsides are dry, and they are just starting to turn golden-brown on the bottoms, 10 to 15 minutes more. (The tops will not brown much.) Cool for a few minutes and eat warm.

Lasagna Slayercks

This is the recipe that my family uses for lasagna that we usually eat at Christmas. We got tired of regular Christmas meals and I suggested we make lasagna because I was big fan of Garfield growing up. Its now a yearly tradition that I make it for my friends.

Ingredients:

2lb ground beef
1lb Italian sausage
1 chopped onion
45 - 55 oz of pasta sauce
1 box of oven ready noodles
lots of shredded mozzarella and
parmesan
1 large container of ricotta
cheese

Instructions:

1. Mix and season 2lb ground beef and 1lb Italian sausage and then brown with the onion in a medium soup pot.
2. Drain grease off. With meat in pan add pasta sauce and add Italian seasoning and bring to a simmer. Turn off heat and in a glass baking dish put a thin layer of sauce on the bottom to prevent noodles from sticking.
3. Layer noodles, sauce, cheeses, then more sauce until out of noodles or top of the pan.
4. Cover with loosely with foil and place on a baking sheet in case of spill over. Bake at 375f (190c) for an hour. Pull out of the oven and add more mozzarella and Parmesan if needed. Let set for a few minutes.

Chocolate Coconut Treat

Arthain

I wanted to do something special for your birthday so I decided to submit this recipe. I hope you like it, it's one of my favorite treats. It's almost as sweet as you are!

Ingredients:

2 cups of Sugar
1/2 cup of Milk
1/2 cup of Butter (Salted or Unsalted. I use Unsalted because we're adding salt already)
1/2 cup of Unsweetened Cocoa Powder
1/2 tsp vanilla
1/2 tsp of flaky salt (can sprinkle on afterwards but it's fine without the added salt at the end)
3 cups of quick cooking oats
1 cup of unsweetened coconut

Instructions:

1. Get a medium sized pot (if it can fit the 4th anniversary mini-Tako plushie entirely without squeezing, it's big enough) and put the butter, milk, cocoa, salt and sugar into it. Heat it at medium-high. Use a whisk to keep stirring it. Once it reaches a boil keep whisking for about 3 minutes.
2. Turn off the burner and dump the oats, vanilla and coconut into the pot and mix it all together. Don't use the whisk to mix it. It'll go badly. Use a big spoon or spatula. Once it's thoroughly mixed (you'll know when there aren't any uncovered oats) it's time to serve.
3. Get a big pan or tray and just scoop it out. I use an ice cream scoop. That tends to get about just the right size you want. You can even use cookie molds if you want, it's very malleable at this stage. Then let it cool. No oven baking required. Can make it just about anywhere.
4. It makes about 11-12 stacks of chocolatey, coconut goodness.

Couple Notes: If you don't want that many, you can easily just cut everything in half and make a smaller batch. You can also add various nuts along with the oats/coconuts if you want, but I enjoy it plain.

Rice Paper Dumplings

お兄ぎり

Get creative! This recipe is vegan, but you can use meat or chicken for the filling, add your favorite veggies, leave stuff out you don't like! Same for the sauce. You can add sesame seeds for extra crunch, or make something totally different. It's a great base to experiment :)

Ingredients:

225g coleslaw mix (shredded cabbage and carrots)
50g shiitake mushrooms
100g (smoked) tofu
8-10g grated ginger
8-10g grated garlic
2 scallions
Salt
Sesame oil
Rice paper

Sauce:

2 tablespoons soy sauce
1 tablespoon rice vinegar
1 tablespoon sesame oil
Sriracha sauce to taste

Instructions:

1. Heat up neutral oil (1-2 tablespoons) in a pan, sauté the garlic, ginger and scallions until fragrant and season with a pinch of salt. Add the tofu, coleslaw mix and mushrooms and 1-2 tablespoons of sesame oil. Sauté for 2-3 minutes until vegetables start releasing moisture. Do not overcook, the filling should remain crisp!
2. Soak the rice paper in room temperature water for 5-10 seconds and place on a slightly moist surface (cutting board, plate, etc.). Add about 1.5 tablespoons of the filling to the center and fold the sides over to close the dumpling.
3. Add about 2 tablespoons of oil to a pan and pre-heat on medium-high heat. Pan-fry the dumplings for around 3 minutes per side. Make sure the dumplings don't touch as they will stick together easily! Better to fry in batches.

Sauce:

1. Add ingredients to a small bowl and mix.

Oat Sugar Cookies

RiDeth

I recently came across this recipe for oat cookies I've been eating my whole life premade bought from store and wanted to share it! They go really well with just about any beverage.

Ingredients:

Around 25 cookies

Time required: 30 minutes

Butter - 75 grams

Oat flakes/rolled oats - 3 deciliters

Sugar - 1.5 deciliters

All purpose wheat flour - 2 tablespoons

Vanilla sugar - 1 teaspoon

Table salt - 1 teaspoon

Baking powder - 1 teaspoon

1 large-ish egg

Instructions:

1. Set oven to 200 C/390 F. Melt the butter on low heat pan/skillet or in a microwave oven. After melting let it cool down for few minutes.
2. While the butter is melting, measure all the dry ingredients in a bowl and mix them together. Tablespoon is recommended as the mixing tool.
3. After the butter has cooled down a bit, pour it in the bowl with the dry ingredients and mix.
4. Crack the egg into the bowl and mix until smooth. Remove any eggshells that might've fallen in.
5. Use a teaspoon to measure dollops of dough onto baking tray covered by baking paper. Each dollop will flatten in the oven to 2-3 times the area of the dollop so leave plenty of space between them and the edges of the tray. Depending on size of the baking tray, optimal arrangement is either 3 by 3 rows or 4 by 4 rows.
6. Bake in oven for 6-8 minutes or until edges of the cookies are golden brown. Let the cookies rest after taking them out of the oven so they develop a crispy exterior.

Enjoy!

Shortcrust Cookie Sandwich

gathog

After getting the Tako and Ina stamps and cutouts, I tried out several recipes to use them.

So far this one turned out to be my favorite, so hopefully you'll also like it ^^

Ingredients:

Cookies:

300g Flour
100g powdered sugar
1 package vanilla sugar (about 15g)
1 Egg
200g Butter (cold)

Filling:

120g Butter (soft)
100g powdered sugar
300g white chocolate

Instructions:

1. Mix all the ingredients for the cookies into a bowl and knead them until they form a nice dough.
2. Wrap the dough with plastic wrap and put it into the fridge for about an hour
3. Preheat the oven at 190°C
4. Afterwards take the dough and roll it out. (dough should be a bit thicker for the stamps)
5. Stamp and cut out the dough
6. Put the cutouts onto a baking tray with parchment paper and bake them for around 10 minutes

While the cookies cool off, you can prepare the filling:

1. Melt the white chocolate
2. Put the butter and sugar into a bowl and mix them
3. Add the melted chocolate and stir until frothy

Afterwards you can take around one tablespoon of the filling and put it on the flat side of one cookie and put another cookie on top.

Last step: Enjoy cookies :)

Fried Rice

Neminem

This is the meal I like to make when I have day old rice and some meat around the house. Most of the time, I'm winging it so the recipe is mostly just vague descriptions. It's not an exact recipe but more of a feel. It's fun to mess around with the recipe so use it as a template and not as a guide.

Ingredients:

Choose proteins you have around the house (I do either bacon, hotdog, or char siu)
Choose vegetables (I add corn and peas usually)
3 Eggs
Day old Rice
Soy Sauce, Sesame Oil, Sesame Seed, Green Onions
Salt, Pepper, MSG

Instructions:

If you can, use a wok for this.
If the protein isn't cooked, cook it first and set aside.
If vegetables are frozen or cold, heat them up and set them aside as well.

1. Put 3 eggs in a bowl and whip em like you would for an omelet.
2. Add oil and start cooking your eggs.
3. When eggs are nearly finished cooking, add the rice.
4. Make sure to declump the rice.
5. Add Green Onions so it cooks with the rice. I'm just winging it here but here you start adding the soy sauce, sesame oil, and sesame seed
6. Now add the proteins and vegetables you set aside. Make sure to throw this stuff around.
7. Now start throwing in salt and pepper and a lot of MSG (Need that Uncle Roger Approval).
8. Try out a small amount of the fried rice with a combination of the ingredients and add more salt, pepper, and MSG per taste.

Sample Ammomagnet

While going through an old cookbook, I happened upon this dish. Seeing it reminded of the summer bingo stream where the dish was suddenly brought up. That was one of the rare occasions I've heard Finnish spoken on stream, which is what I remember it for. A nice little memory

1. Mix the milk powder into water. Add the eggs and salt and sugar. Mix until combined.
2. Pour the mix into a baking dish lined with grease.

4. Traditionally served with jam, or with cinnamon and sugar

Birthday Fruit Tart

Aznsoulreaper

Happy Birthday Ina! I've always enjoyed your cooking streams, so I was inspired to make fruit tarts from scratch! Since it's your 5th birthday with Hololive, I wanted to try experimenting with fruit that was in your color scheme. It's my first time using mango and it ended up looking scuffed tehe~

Equipment:

9-inch removeable bottom tart pan
Food Processor (for dough)
medium/large mixing bowl
mandoline slicer (for fruit)

Basting Brush

Ingredients:

~Tart Dough~

1/3 cup (40g) Almond Flour
1 cup (130g) All-purpose Flour
1/4 cup (30g) Powdered Sugar
1/2 teaspoon (3g) Kosher Salt/Table Salt
1 stick (115g) Unsalted Butter (cut into roughly 2 cm slices, chilled)
1 Large Egg Yolk
1 teaspoon (6g) Vanilla Extract
4 teaspoon (20g) Water

~Vanilla Custard~

2 cups (450g) Whole Milk (Lactose-free is fine too)
1 Vanilla Bean
1/2 teaspoon (3g) Kosher Salt/Table Salt
1/2 cup (60g) Sugar
1/2 cup (30g) Cornstarch
5 Large Egg Yolks
3/4 stick (85g) Unsalted Butter (cut into roughly 2 cm slices, chilled)

~Fruit~

You are free to use any kind of fruit you are comfortable slicing up. Berries are the easiest to work with.

Experiment with different kinds of fruit! Fuji Apples are my favorite because I can make roses/flower patterns with the slices.

~Other optional ingredients~

Apricot Jam

Any kind of nuts

Instructions:

~~Mixing Tart Dough~~

1. In a small baking pan, spread out your Almond Flour, and toast at 350F/180C for about 3-5 minutes until the flour looks lightly golden.
2. Put your dry ingredients into the food processor. Mix for a couple of seconds.
3. Put in the sliced butter into the dry ingredients, and mix until the texture looks like rough sand.
4. Pour in the wet ingredients, and mix until dough is fully mixed together.
5. Wrap the dough in roughly a flat square shape in plastic wrap, and put in fridge for about half an hour. This will toughen the butter.
6. After the dough is chilled, remove the dough from the plastic, and place it in the tart pan. Press the dough to cover the bottom and the edges ~1/2-1 cm in thickness. A flat bottom measuring cup covered in flour makes this easier.
- Use a small knife to trim off the excess on the edges. Save the leftover dough to fix cracks later.
7. Cover the moulded tart with aluminum foil completely flat even up the edges (pie weights/beans are not necessary to weigh it down). You can use the measuring cup again to line up the aluminum foil to the tart.
8. Bake for 15-20 minutes at 350F/180C.
9. Remove the aluminum foil, and bake again uncovered for another 15-20 minutes

at 350F/180C.

~~Vanilla Custard~~

1. Pour the Sugar and Cornstarch into a mixing bowl, and whisk to break up lumps.
2. Slice open the Vanilla Bean and scrape out the vanilla. Do not throw the outer bean casing away.
3. Heat up the Milk in a saucepan on medium heat, and put in the vanilla and the outer bean casing to infuse into the milk. Keep constantly stirring for about 5 minutes to a low simmer (or the milk will burn on the bottom).
4. While the vanilla is infusing into the milk (keep an eye on it and stir occasionally to prevent burning), pour the Egg Yolks into the mixing bowl with the sugar and cornstarch. Mix with a whisk. The mixture will look bright yellow and tough at first, but keep mixing until it feels smoother and the color becomes a pale yellow.
5. Tempering the eggs. Turn off the heat from the milk. Ladle in a couple of ladle-fuls of hot milk into the mixing bowl and constantly stir the milk into the eggs. Add a couple of more ladles of milk as you keep stirring. This tempers the eggs without cooking them into scrambled eggs.
6. Once you've incorporated about 70-80% of the hot milk into the egg mixture, pour the contents of the mixing bowl into the same saucepan as the remaining milk. Turn the heat to high and keep stirring with the whisk.
7. As the mixture heats up, the cornstarch will slowly begin to thicken the entire mixture. This will take several minutes of constant stirring so it doesn't burn at the bottom of the saucepan.
8. Once the mixture reaches custard consistency, add the chilled butter to the custard to add creaminess and sheen.
9. Remove the outer vanilla bean casing from the custard and discard.
10. Pour the custard into a heat tolerant container, and chill in the fridge. You can put a layer of plastic wrap on top the surface of the custard to prevent a film from forming.

1. Add olive oil and cajun seasoning to a bowl containing all the other ingredients, and toss until coated.
2. Add mix to large skillet on medium-high heat.
3. Cook ~7 min until shrimp is pink and veggies are tender. Serve plain or over rice.

Chocolate Chip Cookies

Windstreak

After receiving the cookie cutters and apron that was in Ina's birthday merch set, I knew that I wanted to bake some cookies eventually! I finally had the chance to when my friends and I decided to have a bit of a party during the new year. I made these chocolate cut out cookies and they turned out great! Thank you for giving me the idea to bake Ina! I should really do it more

Ingredients:

1 1/2 cups all-purpose flour
3/4 cup unsweetened cocoa powder
1 1/4 teaspoons baking powder
1/8 teaspoon salt
3/4 cup butter, softened
1 1/4 cups granulated cane sugar
1 egg

Modifications made, original recipe is by allrecipes

Instructions:

1. Sift together the flour, cocoa, baking powder and salt; set aside
2. In a medium bowl, cream together the butter and sugar until smooth. Beat in the egg. Gradually stir in the sifted ingredients to form a soft dough. Divide dough into 2 pieces, flatten and wrap in plastic wrap. Refrigerate for 2 hours.
3. Preheat the oven to 375 degrees F (190 degrees C).
4. On a lightly floured surface, roll the dough out to 1/8 inch in thickness. Cut into desired shapes with cookie cutters. Dough will be sticky so be sure to add more flour to the rolling surface as needed. Place cookies 1 1/2 inches apart onto cookie sheets.
5. Bake for 9 to 12 minutes in the preheated oven. Allow cookies to cool on baking sheet for 5 minutes before removing to a wire rack to cool completely.
